The Perfect Foot.

A woman's foot, when perfect, is hollowed out well, both inside and out, with a high instep, short heel and long, straight toes, slightly spatulate at the ends.

This is the type of the most beautiful foot. It is, on the whole, a foot not frequently seen in its perfection, for often one or the other element of beauty is wanting. The rarest point of beauty is the hollowing of the outside of the foot.

If anyone would convince himself that the hollow of the outside of the foot is rare, let him watch the prints that seaside bathers leave when they step on a dry plank or walk. Most of such footprints show a greater or smaller hollow on the inside of the foot, but nearly every one shows a straight wet mark on the outside, says Woman's Life.

That water should flow under the arch of the foot without wetting it is an old and good rule where feet are concerned.

The uniform success that has attended the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy has made it a favorite everywhere. It can always be depended upon. For sale by ALL DEALERS.

"Title Talks"

The Business of Abstracting

The business of Abstracting titles is of comparatively recent growth. As lands increase in value, the need of title security becomes more and more imperative.

It is just as sensible to safeguard the title to a thousand dollar vacant lot or to any other property, as it is to keep your thousand dollar bond under lock and key.

PROTECTION IN EITHER CASE IS THE THING SOUGHT.

Good titles make real estate as negotiable as stocks and bonds.

There is no way of being sure about the title except by the help of an abstract by a reliable company.
